

## 2021 Subject Index

---

24-hour urine .....	177	Mentor .....	37, 39
Age-related changes .....	108	Micronutrients.....	4
Aged women .....	117	Mortality .....	171
Ageing.....	4, 18	Multidisciplinary team.....	101
Aging .....	2, 171	Muscle thickness.....	108
Blood neutrophil-lymphocyte ratio.....	143	Nephrotic syndrome .....	25
Breast cancer .....	117	Nutrients .....	4
Cardiovascular diseases .....	18	Obesity .....	12, 37, 39
Care.....	101	Older adult.....	143
Clinical geriatrics.....	2, 177	Older adults.....	108, 133, 171
Computed tomography .....	30	Older people.....	33, 149
Coronavirus .....	30	Older women.....	117
COVID-19 .....	37, 39, 133	Oxidative stress .....	4
Cremation .....	30	Pacemaker.....	30
Dance therapy .....	133	Polypharmacy .....	12, 40
Decision-making.....	117	Post-COVID-19 .....	101
Dementia.....	133	Postmenopausal women .....	117
Deprescribing.....	33	Postural control.....	156
Depression.....	12	Posture .....	156
Elderly .....	12, 25, 40, 156	Prescribing .....	40
Endocrine therapy.....	117	Prevention.....	33, 133
Falls.....	33, 171	Prof. Tascioglu .....	37, 39
Follow-up.....	101	Protein/creatinine ratio .....	177
Frailty .....	2, 18, 108	Proteinuria.....	177
Geriatric care management .....	2	Quality of care.....	149
Geriatric patients.....	117	Radiopharmaceuticals.....	30
Geriatrics.....	171	Renal biopsy.....	25
Grip strength.....	108	Rowe and Kahn's model .....	124
Healthy ageing.....	124	Sarcopenia .....	2, 108
Heart failure.....	18	Screening .....	149
Inappropriate medication use .....	40	Short balance evaluation systems test.....	156
Inflammation .....	143	Sleep quality .....	12
Internal medicine .....	37, 39	Spot urine .....	177
Long-term care .....	133	Successful ageing.....	124
Long-term consequences.....	101	TIME criteria.....	40
Malnutrition.....	143	Ultrasound .....	2, 108
Medication review.....	33
